EDUCATION

Expected 05/2025 **Bachelor of Science in Computer Science**
Brooklyn College, City University of New York (CUNY)

SKILLS **Languages:** Java, Javascripts, C++, Python **Technologies:** React, Axios, MongoDB

PROJECTS **DND.AI 03/2024- 05/2024** <https://github.com/Spring-2024-CTP-Project/SPRING-2024>

- Collaborated in a team of 5 to develop a React-App that generates DND character backstories and images based on user inputs.
- Fine-tuned OpenAI's ChatGPT-4 and DALL-E 3 models, enhancing output quality and relevance.
- Completed the project within a 3-month period, delivering it to an audience of 50+ fellows, receiving positive feedback and achieving a user satisfaction rate of 95%.

Infuencify 09/2023-12/2023 <https://github.com/Inumo-Joseph/Fall-Project-2023---Infuencify>

- Collaborated in a team of three through GitHub to develop a multi-page video sharing application that enables content creators to connect with each other.
- Utilized React.js to develop the frontend of the application, facilitating user interaction across multiple pages and Firebase as the backend infrastructure and for user auth
- Deployed the application using Firebase services, making it accessible to users in a live environment within the given development period

WORK HISTORY

06/2024 to 8/2024 **Software Engineer Intern**

Oppizi USA, Brooklyn NY

- Worked in Agile sprints, using Jira to track progress, manage tasks, and ensure timely delivery of features and updates
- Contributed to the development and maintenance of a large-scale React platform serving multiple clients and Improved platform scalability and user experience through localization in over 1200+ files, ensuring accurate and consistent user experience across all supported languages.
- Collaborated closely with the backend team, working with a SQL database to integrate and display translated content efficiently

06/2023 to 08/2023 **Intern**

Organization for the Development of Health (ORGDH) Non-Profit

- Enhanced the organization's visibility and outreach efforts, and advancing the organization's mission of serving 100+ people in the Queens Village community each week
- Orchestrated the planning and execution of organizational events, leveraging strategic planning and logistical coordination of events like Job Fairs to ensure successful outcomes
