JOSEPH INUMO JR.

Queens, NY 11691 - 917-599-1958 - inumoj@gmail.com
https://www.linkedin.com/in/joseph-inumo-jr-1a3106220/ - https://github.com/Inumo-Joseph

EDUCATION

Expected 05/2025

Bachelor of Science
Brooklyn College, City University of New York (CUNY)
Relevant Coursework: Java Programming, Modern Programming Techniques, Data Structures in Java, Discrete Structures, CUNY Tech Prep

SKILLS

Languages

- Java
- JavaScript
- C++
- Python

Technologies

- BootStrap
- React
- Axios
- MongoDB

PROJECTS

DND.AI 03/2024- 05/2024 https://github.com/Spring-2024-CTP-Project/SPRING-2024
- Collaborated in a team of 5 to create an A.I application using a React.JS Frontend and a MongoDB and Axios backend
- Developed an application that generates DND character backstories and images based on user inputs.
- Fine-tuned OpenAI's ChatGPT-4 and DALL-E 3 models, enhancing output quality and relevance.
- Completed the project within a 3-month period, delivering it to an audience of 50+ fellows, receiving positive feedback and achieving a user satisfaction rate of 95%.

Infuencify 09/2023-12/2023 https://github.com/Inumo-Joseph/Fall-Project-2023---Infuencify
- Collaborated in a team of three through GitHub to develop a multi-page video sharing application that enables content creators to connect with each other.
- Utilized React.js to develop the frontend of the application, facilitating user interaction across multiple pages and Firebase as the backend infrastructure and user auth, leveraging its NoSQL database capabilities to store video content and user data efficiently.

Deployed the application using Firebase services, making it accessible to users in a live environment within the given development period.

WORK HISTORY

06/2024 to 8/2024

Front End Software Engineer Intern
Oppizi USA, Brooklyn NY
- Contributed to the development and maintenance of a large-scale React platform serving multiple clients
- Improved platform scalability and user experience through localization in over 1200+ files, ensuring accurate and consistent user experience across all supported languages.
- Collaborated closely with the backend team, working with a SQL database to integrate and display translated content efficiently.
- Worked in Agile sprints, using Jira to track progress, manage tasks, and ensure timely delivery of features and updates

06/2023 to 08/2023

Intern
Organization for the Development of Health (ORGDH) Non-Profit
- Enhanced the organization's visibility and outreach efforts, and advancing the organization's mission of serving 100+ people in the Queens Village community each week
- Orchestrated the planning and execution of organizational events, leveraging strategic planning and logistical coordination of events like Job Fairs to ensure successful outcomes
- Updated and maintained the organization's website on the Wix platform, ensuring that content remained current, engaging, and aligned with organizational objectives and branding guidelines.

03/2022 to 10/2022	**City Operations Manager, Intern** **Oppizi USA**

- Handled scheduling, interdepartmental communication, oversight of 150+ active brand ambassadors and management
- Managed inventory of 100+ materials and products through the company's platform to facilitate technology-powered offline marketing
- Analyzed distribution data with Excel/Google Spreadsheet of over 200+ locations in NYC to determine the team's workload distribution.
